ANALYSIS REPORT

Report ID（2026zk1804-6）

Sample Information			
Sample Name	Optical Frame	Sample color	Black
Sample Serial	—	Appearance	Solid
Applicant	MGICLUB PHILIPPINES CORPORATION	Sample weight	—
Trustee	—	packaging	Boxed
Sample Photo			
Analysis and Testing			
Project	specified component analysis		
Received Date	2026.10.22	Analysis Date	2026.10.23
Analysis unit	Zhongke Sourcing Testing	Quantity	1
Signer	Roche	Date	2026.10.23

Note:
1、the report is only responsible for the samples received
2、the analysis report is invalid without the signature of the issuer

ANALYSIS REPORT

Report ID(2026zk1804-6)

Test Result：

NO.	Compound name	CAS NO./Marks	Mass Percent(%)
1	Polyurethane (PU)	/	0.5

Notes:

1、Method Detection Limit (MDL): 0.1%;

2、The test results specified in this report are only valid for the samples submitted by the entrusting party;

3、All data in this report are test results obtained under current technical conditions, which are for testing research or reference only, and shall not be used in scenarios such as legal disputes;

4、This laboratory does not hold CMA and CNAS qualifications recognized by the state. All issued test data and results are for reference only, and shall not be regarded as socially impartial official data.

.Composition analysis：

Item	Test Method	Test Equipment	MDL.
Composition analysis	GB/T6040-2019,GB/T17359-2023 GB/T9722-2023,EPA6010C-2007etc	Inductively Coupled Plasma Emission Spectrometer ICP Shimazu ICPS-8100	0.1%
		Fourier transform microinfrared spectrometer FTIR (Nicolet IS5)	
		Gas Chromatography-Mass Spectrometer GC-MS(Shimazu GCMS-QP2020NX)	
		UV-Visible Spectrophotometer UV-Vis (UV-5200)	
		Scanning electron microscope + X-ray energy spectrometer SEM+EDS(JEOL7610Plus)	

*******Report statement********

1.Zhongke Sourcing Testing is located in the national-level Chengdu Tianfu New Area. Our center is dedicated to material testing, material analysis, formula reduction for the chemical industry, and the development of new materials in emerging fields. We promote the overall R&D progress of projects, shorten the R&D cycle, and advance the process of independent research and development.

2.The contents and data of this report are derived from the comprehensive analysis of various spectra and technical experience. They do not belong to third-party notarized data, and cannot be used for trade settlement, safety protection, medical and health care, environmental monitoring, resource protection, statutory evaluation and other scenarios. The analysis data and results are only for reference in scientific research, teaching or internal quality control; they shall not be used in legal disputes or other occasions, and shall not be regarded as socially impartial data.

3.Production in fields involving chemical industry, new materials, environment, biology, food, etc. often faces unstable production issues caused by factors such as raw materials, processes, equipment, environment, and personnel quality. Non-professionals or personnel without relevant approval shall not operate on their own.

4.Our institution undertakes confidentiality obligations for the entrusting party's trade secrets including technical documents, report texts, contract documents and other related confidential materials.

5.Any analysis report of our institution (including copies and the altered parts of altered versions) shall be invalid without the signature of the approved person and the official seal of "Chengdu Zhongke Sourcing Testing Technology Co., Ltd. Special Seal for Testing".

6.The inspected entity shall not copy this report on its own. If copying is truly necessary, an official letter or introduction letter shall be presented to apply for copying.

7.This report is for internal reference only. It is not used as notarized data, shall not be used for advertising purposes, and shall not be distributed at will.

8.If there is any objection to this analysis report, please submit it to the analysis institution within 10 working days from the issuance date. Applications submitted beyond the time limit will not be accepted.

9.This report is the carrier of technical services provided by the service party to the entrusting party, and is only for the entrusting party's own reference. Without the written permission of the service party, the entrusting party shall not publish this report and relevant data on media or the Internet. Otherwise, the entrusting party shall bear all responsibilities that may arise from such act. If the publishing act causes losses to the service party, the entrusting party shall compensate the service party for all relevant losses. The entrusting party shall use this report with caution, and shall bear all risk losses and legal consequences that may arise from using the contents and data in the report.
